**DETAILED ACTION**

***Response to Amendment***

1. This action is in response to the communication filed on 9/19/07.
2. Claims 1-60 are pending in this action.
3. Claims 1-60 are allowed.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**Please amend the claims as shown below:**

In claim 10, on line 2, change "mode is selection" into -- mode is a selection ---,

In claim 15, on line 3, change "subject" into --- mobile ---,

In claim 20, on line 2, change "mode is selection" into -- mode is a selection ---,

In claim 25, on line 4, change "the predetermined time" into --- a predetermined time ---,

In claim 26, on line 3, change "subject" into --- mobile ---,

In claim 29, on line 12, change "the use of" into --- using ---,

In claim 41, on line 7, change "a notification" into --- the notification ---,

In claim 45, on line 11, change "a notification" into --- the notification ---,

In claim 41, on line 14, change "the use of" into --- using ---,

In claim 49, on line 8, change "a notification" into --- the notification ---,

In claim 49, on line 11, change "a transmission" into --- the transmission ---

***Allowable Subject Matter***

Claims 1-60 are allowed.

The following is an examiner's statement of reasons for allowance:

**As per claims 1-60:** the claims are directed to directional/adaptive antenna and path quality estimation. The prior art of record does not disclose or fairly teach/suggest switching the directivity of an antenna between a downlink common pilot channel and a downlink dedicated control channel, as recited in claims 1, 11, 18 and 22 and a mobile station, measuring a first communication path quality in a data receiving state and a second communication path quality in a data waiting state, as recited in claims 24, 41, 45 and 49.

The closest patents discovered in the search update were: (1) (US 7,116,650 B2), issued to Takeuchi et al., which is predated by a day by a foreign priority date claimed in the instant application, hence not a valid reference. (2) (US 7,174,178 B2), issued to Bergel, is directed to diversity transmission of common pilot channel signals, hence not including the dedicated control channel, claimed in the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
